Volunteer Coaches

The Marionville R-9 School District recognizes the importance of providing the district's sports programs with qualified coaches at all levels. As a result of this assessment, individuals will not be permitted to act in the capacity of a volunteer coach with the Marionville R-9 athletic teams during practice or during actual contests. The exception being that student teachers and full-time certified employees of the district, with the consent of the head coach may assist as directed by the athletic director and head coach of that individual sport.
